Appetizers – Monks' Wit Ale

Monks' Wit has a complex yeast character that lends a robust profile that accentuates the imported coriander, tangy orange peel, and other spices. The pale malt provides a sweet, bready quality that is the perfect backdrop to the intricacy created by the traditional yeast and spice. The wheat and oats lend a creamy taste and a velvety elegance. The imported hops and spices give a clean, dry finish to this light, refreshing ale.

Main Courses – Monks' Dark Ale

Monks' Dark Ale is a well-balanced medium bodied ale with a smooth creamy mouth feel, good carbonation, and no alcohol warmth or astringency. The aromas are predominantly hazelnut and chocolate with hints of raisins and stone fruits, with no diacetyl evident. This ale pours with nice lacing and a lasting tan head. Flavors include toasted hazelnuts, raisins, caramel malt, and mild green apples. No phenols are evident. The subdued, yet present hops create a light, crisp, refreshing, taste. The finish is dry with mild caramel and green apples and a slight roastiness, inviting another sip of this all-season dark signature ale.

Desserts – Monks' Dubbel Ale

Monks' Dubbel® Ale is a full-flavored and well-balanced ale with an attractive amber glow. Enticing yeast-driven aromas of banana bread, cotton candy, and treacle are a pleasant prelude to flavors of toasted walnut, dark fruit, and caramelized sugar. Mildly spicy and earthy hops artfully balance its full-bodied maltiness, yielding to a long, crisp, complex finish. This pleasant old world hop character provides a delightful counterpoint in this remarkably harmonious ale.
